

ANNEMaxx ENHANCE_{PLUS}

(MA3)

Product Overview

Annem maxx Enhance Plus (MA3) is a unique 3-6-3 product with amino acids, phosphoric acids, bio-peptides, amino acids, complex potash and plant growth hormones. Soil superfood focusing on Phos efficiency.

Application Guidelines

- Apply at early season in-furrow or in-crop foliar application timing
- Crops: Canola, Pulse crops, Cereals, Potato, Orchard Crops, Corn, Forages and Turf Grasses
- Enhance Plus is a registered product with CFIA and approved for use in broadacre and other crops
- Compatible with Herbicides and Fungicides for foliar applications. Mixing procedure in any order. A jar test is recommended prior to application
- For best results, this product is designed to be mixed with Advantage at time of application or at most 48 hours prior

IN-FURROW

- Mix Advantage (MA1) with Enhance Plus to a 3:1 ratio. Dilute a rate of 2-3L of combined products to 40-60 L/acre

FOLIAR APPLICATION

- Mix Advantage (MA1) with Enhance Plus to a 3:1 ratio. Dilute a rate of 2-3L of combined products to 40-60 L/acre

Active Ingredients

Total Nitrogen (N).....	3.00%
Phosphoric Acid (P ₂ O ₅)	6.00%
Soluble Potash (K ₂ O).....	3.00%

Features & Benefits

- Contains activated compounds that help to reduce crop stress
- Specially formulated to promote increased flowering and budding
- Activates phosphorus-solubilizing bacteria from Advantage (Premium Microbial Blend), enabling phosphate absorption into plants
- Excellent food source for beneficial bacteria and fungi

AVAILABLE IN 1000L TOTE, 10L AND 20L JUG
