

ANNE MAXX ENHANCE PLUS

(MA3)

Product Overview

AnneMaxx Enhance Plus (MA3) is our unique “Enhanced” 3-6-3 product with amino acids, phosphoric acids, bio-peptides, amino acids, complex potash and plant growth hormones. Soil superfood focusing on Phos efficiency. Stimulates and feeds phos-solubilizing bacteria in your soil.

Application Guidelines

- Apply at early season in-furrow or in-crop foliar application timing.
- Crops: Canola, Pulse Crops, Cereals, Potato, Orchard Crops, Corn, Forages and Turf Grasses.
- Enhance Plus is a registered product with CFIA and approved for use in broadacre and other crops.
- Compatible with most products for foliar applications. Mixing procedure in any order. A jar test is recommended prior to application.
- For best results, this product is designed to be mixed with Advantage at time of application or at most 48 hours prior.
- Always recommended to pre-condition your water for pH and hardness. Optimize Plus or Micro are an excellent tool for this.

IN-FURROW

- Mix Advantage (MA1) with Enhance Plus to a 3:1 ratio. Dilute a rate of 2-3L of combined products to 40-60 L/acre.

FOLIAR APPLICATION

- Mix Advantage (MA1) with Enhance Plus to a 3:1 ratio. Dilute a rate of 2-3L of combined products to 40-60 L/acre.

Active Ingredients

Total Nitrogen (N)	3.00%
Phosphoric Acid (P ₂ O ₅)	6.00%
Soluble Potash (K ₂ O).....	3.00%

Features & Benefits

- Contains activated compounds that help to reduce crop stress.
- Specially formulated to promote increased flowering and budding.
- Activates phosphorus-solubilizing bacteria from Advantage (Premium Microbial Blend), enabling phosphate absorption into plants.
- Excellent food source for beneficial bacteria and fungi.

AVAILABLE IN 1000L TOTE AND 20L PAIL
